and NSD File No. L-00-72.

Dear FCC:

I use my tracfone basically for emergency calls. I cannot afford a monthly plan with the other carriers. Now you want to raise the rates for tracfone. With the way the economy is, people on fixed incomes, losses in the stock market, low interest rates at the bank and yet all the utility companies want to raise the rates. When will this stop? Please think about the little guy before you add these charges to Tracfone. Thank you.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Betty MaGuire
